## *The Making of our Homeware Collections*

*“At Anna + Nina, we develop our collections carefully and consciously. We pay attention to every detail and want to bring joy, colour, and a touch of magic into everyday life. “Celebrate True Craftsmanship” is our way to go. We do everything with love, care, and attention to detail, whether it’s in the choice of material, the design process, the production of a collection, or the way we do business.” – Anna & Nina*

Our treasures should be created under fair working conditions, with minimal negative impact on the world. Therefore, we’ve been making conscious decisions for years, analysed our suppliers and raw materials, and have a sustainable buying policy in place, and it’s about time we start to spread the word. Visit our sustainability page to learn more about our goals and beliefs.
