

HOUSEVITAMIN®

MAKE SURE YOUR INTERIOR MAKES YOU SMILE

THE STORY OF HOUSEVITAMIN

FOUNDED BY THOMAS & MISCHA

Housevitamin is created by us, Thomas and Mischa. We love creating interior stuff that makes you smile.

We have started the label, because we wanted to make hip and happening interior more reachable and affordable for everyone. Design used to be very expensive and not easy to style. Housevitamin has changed this and showed everyone that hip design can be affordable, fun and very easy to mix and match.

Every item has a passion, a story and lots of creativity behind it. The items are born with their own story and identity. Most of the times they are developed from a personal need. You can read about it all about in the product descriptions.

As a person, we love to be provocative. That's why our collection and quotes are sometimes a bit edgy: it makes life less serious and more fun.

You all deserve an interior that makes you smile.

With love, Thomas & Mischa
